

WELCOME TO YOUR LEVEL 10 STUDY SESSION

Are you preparing for your upcoming Level 10 or National Test? Well, we've come up with an AWESOME study guide and tests! You won't find anything like it anywhere else!!! New requirements and element values are highlighted. Many examples of actual skills for bonus combinations are included in practice tests. And the best feature is that the tests are different each time you take them with the "pressing of the SORT BUTTON"!!! The disc is programmed to allow you to make a test in each event by sorting the skills or deductions or bonus combinations. There is also a comprehensive list of general deductions, requirements and skill values!!!

I took the test for the 1st time in August and made my own study guides, just as I did for all of the levels. Before long, I was asked by many if they could use my sheets. With the help of a friend, Loree Galimore, I turned my original sheets into a great study guide with exams!

This information is UNOFFICIAL! While every effort has been made to be accurate as well as current, I apologize for any errors or deletions you may find. Always refer to OFFICIAL publications from the USAG for total accuracy and completeness.

You will receive a CD with tests on Element Values, General Deductions, Common Bonus and the answers to the tests. So many times you memorize the tests, so we've added a feature that will make the tests random, just by hitting the SORT BUTTON, making as many tests as you have time to complete! In addition, you will receive study material for L10 in general for each event.

Should you find errors and items that should be added, feel free to email me the corrections and I will send you a corrected version. NOW HERE IS THE BEST PART: Judy Kemp will purchase this CD for anyone who worked at Judges Cup in 2009! Just send me an email with the information below to receive your CD! Good Luck Judges! I will bring the disks to the upcoming meets or mail your copy to you. Provide me with your personal information in case there are changes and a new revision is published. THANKS!!!!
